Gary,

See the information below for the access contact. We talked to them in person when I was there with the state in January/February. I had Michelle draft out an access agreement-it is below as a word file (I still need to double check it and make sure everything is okay). I am also attaching the original access letter we received from Lynn Dean back in 1996 (as a pdf). I am beyond swamped today and need to leave by 3:05 (a friend of mine has (b) (6) and it is my and (b) (6) ay to cook for her and daughter (b) (6) and (b) (6) have been friends 13 years). We participate in a meal train with other families in the neighborhood taking turns (my turn is about once every 3 weeks). If I get out of my meeting early I will call you so we can do this together-if not can you make contact with them today-I wanted you to talk to them as the work you do will be more extensive and you can answer their questions on the removal side. I really need to be in the field the week of August 6th, as much later and I will miss the window for the next update. The next update is April and due to budget constraints it was written in the budget that we would only have one NPL update in FY2013. It's a one shot deal for 2013. Will you be in tomorrow. I am free in the afternoon-I have a doctors appointment at 8:30 am and a meeting with Ben Banipal at 10:30-anytime after that would be okay.
